

## BuilderMT Lands Coveted Spot on List of *Professional Builder* Magazine's "100 Best New Products of 2008"

*Adding to BuilderMT's Growing List of Awards, "Business Process Management" Software Wins Top 100 Spot.*

**Lakewood, Colorado — June 3, 2008** — BuilderMT, the leading provider of production management software for residential home builders, today announced that its hot-selling Business Process Manager software has won a coveted spot on the list of *Professional Builder* magazine's "100 Best New Products 2008."

As a process management software tool, Business Process Management (BPM) has seen strong sales, even in the housing downturn. The reason for this success among home builders is that BPM has shown a remarkable low-cost ability to reduce inefficiency, identify cost savings, and optimize processes.

With BPM, any authorized user "drag-and-drop" components that represent activities along the critical path of home building, from preconstruction and contract flow, through construction, punch list, and warranty. As components are aligned on the screen (or moved to optimize processes over time), they create deep, back-end processes that can generate contracts, reports, information for pricing, schedules, notifications, purchase orders, payments, and more.

It is BPM's extraordinary ability that has earned the attention of the editors at *Professional Builder* magazine, which each year acknowledge the Top 100 Products in their June issue. Indeed, the listing of BPM in *Professional Builder* magazine's "100 Best New Products 2008" adds to a string of awards that BuilderMT has won in recent years (see full list below).

In other notable news, BuilderMT recently announced that it had added more than 75 new clients – far outselling all of its competitors combined – as the Company continues to put up remarkable sales results in a down housing market. (BuilderMT now has a customer base approaching 700 companies and more than 7,000 actual users.)

Also, two of BuilderMT's clients recently won the two most-prestigious honors in home building. Veridian Homes, a BuilderMT client, was named *Professional Builder Magazine's* "Builder of the Year." And London Bay Homes, another BuilderMT client, won "America's Best Builder Award for 2008" from *Builder Magazine*.
