- BuilderMT Warranty Retail Price: \$100/month annual subscription - **Promo Price: \$80/month**

Here's what you can do with these phone applications:

BuilderMT Customized Business Processes (BPM)

Reduce operating costs by automating customized business processes

- Provide visibility into business processes and allow businesses to continually refine and remove costs from each process
- Quickly alter and deploy new processes
- Remove and communicate only the critical information, instead of constantly running reports
- Integrate with any database or any back-office system

Benefit in all areas of your business

- Customer change requests processes - from design center through drafting, estimating, purchasing, construction and sales contracts
- Automatic, scheduled report generation and distribution to staff and outside parties
- Sales payroll process that captures all sales and cancellations and calculates sale commissions

BuilderMT Warranty Management

Warranty Management Tracking

- Improved customer service and homeowner satisfaction
- Increased staff productivity
- Enhanced management reporting and cost analysis
- Reduced operational expenses, paperwork and manual processes

Wireless Scheduling

Reduce costly errors & reduce inefficiencies

- Manage and track schedule changes
- Keep track of each project
- Improve coordination between field staff and home office
- Manage checklists and quality control walk-throughs

Improve Communications

- Provide wireless mobile scheduling solutions to the field to improve communications between the home office, the field superintendents and the trade contractors
- Send ongoing notices to trade contractors on when they should be on the job site
- Keep track of projects by including notes and reminders from the field for follow-up at a later date

This BuilderMT promotion is valid for Verizon Wireless or RIM BlackBerry users. For details, please contact your sales representative.

Start "mobilizing" your workforce!

- **Want to communicate with your subs, trades and suppliers more effectively and hold them accountable?**
- **Frustrated with your current processes?**
- **Do your schedules talk to other systems?**
