Both Winners of the 2010 "National Housing Quality Awards" Are BuilderMT and Sage Timberline Users

*Simonini Builders and Wayne Homes Win
the Prestigious Professional Builder Magazine Award*

Lakewood, Colorado — November 12, 2009 — BuilderMT, the nation's best-selling, most-award-winning, homebuilder software, today announced that two of its software clients have won major industry awards: Simonini Builders and Wayne Homes have won *Professional Builder Magazine's* National Housing Quality (NHQ) Awards. Simonini Builders took a Gold award and Wayne Homes took Silver. They were the only two builders to win the 2010 awards.

Charlotte, NC-based Simonini Builders, a multiple-award-winning company, offers homes in the \$650,000 to over \$4 million range, and they build custom designs as well as home plans from their "Neighborhood Portfolio." Simonini Builders is widely known for their quality construction, customer satisfaction, and value.

Taking the 2010 Silver NHQ award, Wayne Homes was founded in 1973 and was named in honor of Wayne County, Ohio, where their first homes were built. Wayne Homes is also a multiple-award-winning company. They currently have operations in Ohio, Indiana, Michigan, and Pennsylvania.

Wayne Homes has thrived over the decades since their founding and built more than 17,000 homes.

Both Wayne Homes and Simonini Builders use BuilderMT to manage their workflows, as BuilderMT links seamlessly with a wide variety of other software applications in a “best-of-breed” approach to managing operations. Indeed, BuilderMT’s users include an exclusive list of elite, award-winning home builders, and case-study after case-study points to BuilderMT as the common element among America’s most successful builders. Read the case studies at www.BuilderMT.com/clients.html.

Even in this down economy, BuilderMT has continued to achieve great success. They recently closed software sales with builders starting more than 4,000 homes, including Shaddock Companies, The Warmington Group, Fusion Homes, Aston Ridge Homes, Vicknair Builders, Long Property Company LLC, Fairhaven Homes, TTI Stone, Vantage Commercial, Paragon, Axnick Builders, and Timber Ridge Homes.

“One common feature of many of today’s most-successful, award-winning homebuilders is that they use BuilderMT, which itself is the most-award-winning software company in this industry,” said Tom Gebes, BuilderMT’s president. “With great customers and award-winning technology, it’s no wonder we dominate the market and outsell all of our competitors combined.”

About BuilderMT

For the construction industry at large, BuilderMT provides highly customizable workflow and building-process-management software that works in tandem with Sage Timberline Office accounting and estimating software, and with many other wireless and jobsite productivity tools. BuilderMT systems have been purchased by over 800 corporations and more than 7,000 individuals, and the Company manages construction for around 20% of the U.S. new-home market. BuilderMT is widely recognized as a leader in process-driven, best-building-practices for builders, as well as customer service, warranty applications, online training, and innovative wireless applications.
