## BuilderMT's Scheduling Tools Now Available Through the Peachtree 3rd Party Add-On Program

Source: *Business Wire*  
Publication date: 2005-03-29

"Peachtree Complete Accounting 2005" Will Integrate with BuilderMT's Scheduling and Wireless Scheduling Applications

BuilderMT, the nation's leading provider of production management software for residential homebuilders, today announced it has expanded its marketing and development relationship with Best Software (parent company of Timberline (R) and Peachtree(R) Accounting). Now part of the Peachtree 3rd Party Add-On program, BuilderMT will be marketing its industry leading scheduling and wireless scheduling applications to Peachtree users.

BuilderMT recently announced it had achieved record growth in 2004 and was on track to double in size in 2005, with a surge of sales and interest generated by BuilderMT's new real-time, wireless scheduling and its new Jobsite Field Management application. Through the new Peachtree Add-on Partner Program, BuilderMT extends its reach into and beyond the homebuilding industry to address the scheduling and wireless scheduling needs of Peachtree users.

BuilderMT's participation in this Program gives builders using "Peachtree Complete(R) Accounting 2005" the ability to leverage BuilderMT industry-leading construction domain expertise. The integration between BuilderMT and Peachtree will allow businesses to populate their BuilderMT scheduling databases with all job and supplier records from Peachtree, as well as provide access to pre-written, "quick start" scheduling databases.

Even before the new Peachtree partnership was established and Jobsite Field Management was introduced at the International Builders Show, BuilderMT was already the homebuilding industry's most-advanced project management software. BuilderMT offers "Click to Learn" training (which can be done from the builder's desktop) and One-Click Software "Auto-Updates," where the latest version of BuilderMT is available for instant download through a convenient desk-top link.

#### About BuilderMT

For large and medium-size homebuilders in the \$250 billion homebuilding industry, BuilderMT provides highly customizable building process management software that works in tandem with Timberline Office accounting and estimating software. BuilderMT has been purchased by over 400 corporations and 2,800 individuals to manage over 140,000 housing starts annually. BuilderMT is widely recognized as a leader in process-driven, best-building-practices for builders, as well as customer service, warranty applications, on-line training, and innovative wireless applications. Since its inception in 1999, BuilderMT has maintained its status as a profitable company that puts its profits back into the infrastructure and software development. To learn more, visit [www.BuilderMT.com](http://www.BuilderMT.com), or call (888) 757-1991.

#### About Best Software, Inc.

Best Software offers leading business management products and services that support the needs, challenges and dreams of more than 2.3 million small and mid-sized customers in North America. Its parent company, The Sage Group plc (London: SGE.L), supports 4.4 million customers worldwide. For more than 25 years, Best Software has delivered easy-to-use, scalable and customizable applications through its portfolio of leading brands, including Abra(R), ACCPAC(R), ACT!(R), BusinessVision(R), CPASoftware(R), FAS(R), MAS 90(R), MAS 200(R), MAS 500(R), MIP(R), Peachtree (R), SalesLogix(R), and Timberline(R) Office, among many others.
